This Playgroups aims to :

- Promote positive parent-child interaction by building strong relationships between children and their significant carer. This is supported by assisting parents to set appropriate routines and boundaries for their child, and promoting a positive parenting style including adequate supervision, consistency, warmth and affection and involvement in their child's activities.
- Increase parent's knowledge about their child's development to improve developmental outcomes for children.
- Develop family wellbeing by increasing their social and community connections and facilitating engagement with other services both internally and externally.

Please contact Nat Munoz (Early Years Engagement Partner) if you require any additional information.
