

Preschool Enrolments 2021

Play – Inspire – Imagine – Connect – Engage – Investigate – Respect

At Ngunnawal Preschool we provide an inclusive environment and high-quality teaching for children's learning. We believe that a welcoming environment and warm, trusting relationships between children, educators and parents are crucial for a child's first school learning experience.

Our play-based curriculum is responsive to the interests and needs of the children. It acknowledges the uniqueness they bring to school, whilst encouraging them to form friendships through social play where they can learn and interact together. We create an environment where children develop the confidence to question, theorise, share ideas and opinions and to see things from another point of view.

Preschool enrolments are now open. Please visit the ACT Education Directorate website to complete your enrolment. We look forward to seeing you in 2021.
