

Koori Preschool Enrolments 2021

The Koori Preschool program at Ngunnawal Primary provides children who identify as Aboriginal and/or Torres Strait Islander the opportunity to learn aspects of their culture through a play-based program. Children participate in early literacy and numeracy learning as well as the opportunity to develop oral language skills. A culturally inclusive environment is created where children feel safe and welcome.

Our play-based curriculum is responsive to the interests and needs of the children. It acknowledges the uniqueness they bring to school, and focuses on learning through inquiry, participation, exploration and experimentation. Koori preschool also provides opportunities for children to listen and learn about their culture through storytelling, art, role play and Aboriginal and/or Torres Strait Islander visitors.

Preschool enrolments are now open. Please visit the ACT Education Directorate website to complete your enrolment. We look forward to seeing you in 2021.
